How to Register Teams for AlgoGLORiA 2K26

Follow this step-by-step guide to register your team on the Hackathon Portal.

Note: Only one person (the Team Leader) needs to create the team. Other members simply need to register on the portal using the exact IDs the leader invites them with.

Step 1: Start Your Journey (Authentication)

1. Go to the Registration Page.
2. Select your Participant Type:

   Amity Student: If you are from Amity University Bengaluru.

   Other College: If you are participating externally.
3. Enter your Login ID:

   Amity Students: Enter your Amity Enrollment Number (e.g. 21001).

   Other College Students: Enter your Email Address.
4. Create a secure password (minimum 6 characters) and click Next.

Step 2: Personal Information

Fill out your primary contact details:

1. Enter your First Name, Last Name, and Mobile Number.
2. Select your Gender.
3. Additional Details based on your type:

   Amity Students: Enter your Email Address. (Your Domain and Course are automatically mapped).

   Other College Students: Enter your College / University Name and City.

4. Click Next to proceed to the final step.

Step 3: Team Setup

Set up your squad! A team can have a maximum of 4 members (1 Leader + up to 3 Members).

1. Enter a unique and catchy Team Name.

2. Invite Members (Optional but Recommended):

Click + Add member to add input fields.

Amity Students: Enter the Enrollment Numbers of your teammates.

Other College Students: Enter the Email Addresses of your teammates.

3. Click Finish Registration.

Important Notes for Teammates

Once the Team Leader finishes registration, the team is successfully created.

Teammates must also register on the portal individually to set their passwords and access their dashboard.

Teammates MUST select the exact same Participant Type (Amity or Other College) and use the EXACT SAME Enrollment Number or Email Address that the Team Leader used to invite them. The system will automatically link them to the team!

Welcome to AlgoGLORiA 2K26! Once registered, log in to access your Team Dashboard, view your stability index, and eventually lock in your problem statement.
